

SAYANTA GHOSH

Aspiring Data Analyst | Business Intelligence Enthusiast

Kolkata, West Bengal – 743145 | +91 74396 03622 | sayantaghosh002@gmail.com | linkedin.com/in/SayantaGhosh | github.com/SS-Sayanta

SUMMARY

Final-year BCA student specializing in Data Analytics and Business Intelligence, with hands-on experience designing interactive Power BI dashboards, SQL-driven analytics projects, and end-to-end reporting solutions on real-world datasets. Proficient in Python, SQL, Power BI, DAX, Power Query, and Advanced Excel, with a strong foundation in data cleaning, KPI reporting, and data visualization. Brings the discipline and consistency built as a competitive football player to every deadline. Seeking a Data Analyst / Business Intelligence internship to apply these skills and support data-driven decision-making.

SKILLS

Programming: Python, SQL

BI & Analytics Tools: Power BI, DAX, Power Query, Advanced Excel, Tableau (Learning)

Data Libraries: Pandas, NumPy

Database: MySQL

Tools & Platforms: Git, GitHub, Jupyter Notebook, VS Code

PROJECTS

FIFA World Cup 2026 Analytics Dashboard — Power BI, DAX, Power Query, Excel

- Engineered a multi-page, interactive Power BI dashboard covering 500+ matches and 700+ players to analyze team, player, and tournament performance.
- Cleaned and transformed raw match and player data using Power Query, then built 15+ DAX measures to automate KPI reporting and cut manual reporting effort by an estimated 40%.
- Delivered interactive visualizations that reduced trend-analysis time and made cross-team, cross-player performance comparisons significantly faster.

Swiggy Sales Analytics Dashboard — Power BI, DAX, Power Query, Excel

- Automated an interactive Power BI dashboard analyzing 10,000+ order records to surface revenue, order volume, and customer ordering trends.
- Built 12+ KPI reports and DAX measures to evaluate restaurant and delivery performance across multiple regions.
- Streamlined a dynamic, business-ready dashboard layout that improved stakeholder decision-making turnaround time.

Healthcare Analytics Dashboard — Power BI, DAX, Power Query, Excel

- Developed a Power BI dashboard tracking patient trends, hospital performance, and 10+ operational KPIs across departments.
- Cleaned and transformed large healthcare datasets in Power Query and built DAX-based performance measures, improving data accuracy for reporting.
- Designed interactive reports that improved visibility into key operational metrics for faster administrative decisions.

JioHotstar Viewership Analytics Dashboard — SQL, MySQL, Excel

- Engineered a SQL-driven analytics dashboard analyzing viewership trends, subscription patterns, and content performance across 1,000+ titles on JioHotstar.
- Wrote 20+ complex SQL queries using joins, subqueries, and window functions to clean, transform, and aggregate large streaming datasets.
- Delivered KPI reports highlighting top-performing content, regional viewership, and subscriber retention trends to support content strategy.

EDUCATION

Bachelor of Computer Application (BCA) — Swami Vivekananda University

2023 – 2027 (Final Year)

CGPA — 1st Yr: 7.33, 2nd Yr: 7.58, 3rd Yr: 8.38

Higher Secondary (12th), WBBSE — Halisahar High School

69% | 2022

Secondary (10th), WBBSE — Pannalal Institution, Kalyani

67% | 2020

CERTIFICATIONS & ACHIEVEMENTS

- IBM: Python for Data Science & AI
- Computer Hardware & Advanced Networking
- 1st Prize, Techfest Nirmal Mela 2025 — Swami Vivekananda University
- AI-Powered Hackathon Participant — Vivekananda University (VU), 2026

Languages: Bengali, English, Hindi | **Interests:** Football, Drawing, Travelling
